Dear Sir or Madam:

Re: Human Rights Legislation and age restrictions in Condominiums

I am Owner/Tenant in a Condominium Unit that is subject to an age restriction, limiting occupancy in my building to people who are at least _____ years of age. When I bought/rented my Unit in ____ (name of building) the age restriction was an important consideration in my purchase/rental.

I recently learned that the *Alberta Human Rights Act* will be expanded to include age as a protected ground, which has the potential of fundamentally changing the make-up of my building. I ask that the Legislature consider allowing an exemption for age restrictions in Condominiums, as this is a lifestyle choice that those of us who live in buildings such as this have specifically made. The age restriction is important to me because _____ OR I have chosen to live in an adult only complex because _____.

Please feel free to contact me by phone ____ (number) or by email at ____ (email address) should you wish to discuss this with me.

Yours truly,
